What is a stock?

A share of stock
What is a stock?

- A stock is a small portion of a company
- The company is owned by many many people, called shareholders

A shareholder meeting
What is a stock?

Stocks are bought and sold on the stock market

The trading floor in NY
The price of a stock can change A LOT
Each group starts with $1000 (play money)

Buy stocks to build a stock portfolio

Each week you will
  - Observe the change in the stock prices
  - Calculate the value of your portfolio
  - Buy and sell stocks

At the end of the project
  - Figure out the final value of your stock portfolio
  - Buy things at a class store!
Initial Portfolio Value (final value from previous sheet): _____________
